

2009 is the year of change, allowing for expansion, progression and innovation. Yo-San Studio, LLC (formerly The Scarf Factory, LLC) is at the forefront of the apparel industry changes that will impact the evolving styles of retail consumers. The founders of this hip, forward thinking, Colorado retail boutique are expanding their studio of collections beyond scarves and into the depths of apparel that sparks attitude.

Yo-San Studio, LLC graced the cat walk of fashion in 2006 with the concept of creating fresh, unique and original scarf accessories and has grown into one of the leading accessory retailers in the Western United States.

Operating under the new designation, Yo-San Studio, LLC; allows the inspired designers and associates to create artistry apparel for a variety of fashion modes, while continuing to develop the ever so popular collection of scarves that started it all.

The *Mission* remains the same:

To provide a diverse seasonal collection
of artistry scarves and apparel that spark attitude.

Quick access shopping for working individuals, people on the go and those who enjoy the ease of on-line shopping and home delivery is our goal.
